Context and Scope

ICT and the related technologies such as the Internet and email are an important part of learning in our Academy. We expect all students to be responsible for their behaviour when using ICT and the Internet.

Permission to use the facilities is conditional upon the user agreeing to abide by the "Acceptable Use Policy". Any breaches of this policy will be treated as a disciplinary matter and dealt with appropriately. Sanctions imposed could result in the right to use the facilities being withdrawn either temporarily or, under certain conditions, permanently.

This policy should be read alongside the Academy's policies on:

- Social Media
- Safeguarding and child protection
- Data protection
- Behaviour
- Code of conduct

Network

- Students will only access the Academy computer network with their own username and password.
- Students will follow the Academy's ICT security procedures and not reveal their password to anyone.
- Students may be held responsible for any activity that takes place using their network account.
- Students must inform their teacher/ICT staff whenever a breach of security is suspected.
- Students will not access or attempt to access other people's files.
- All personal data must be processed and stored in line with data protection regulations. Please refer to the Academy's Data Protection Policy.
- Students will log off correctly and leave the equipment set up ready for the next person to use.
- Students will use the computers for schoolwork and homework only, unless directed by a member of staff.
- Students will not cause damage to or interfere with any of the ICT equipment.
- Students will handle all computer equipment carefully.
- Students will not use any media or connect any hardware (CDs, DVDs, USB-drives, MP3 players, cameras etc.)
- Students will not save any other type of file in their user area, i.e. .zip or .exe files etc.
- Students will report any unpleasant material, messages sent to them or misuse of computers.
- Students understand that any action that threatens the Academy network (e.g. hacking) will not be tolerated

- Students must not transmit, re-transmit, publish or store material or messages on or through the School network which could be perceived as bullying, threatening, abusive, hateful, indecent, harassing, offensive or defamatory. This extends to the use of social media.
- Students must not record, video or take pictures of other students, staff or third parties whilst using School devices without express permission from a senior member of staff. This extends to social media.
- Students must follow the above under any circumstances. Any such misuse will be dealt with very severely.

Internet Use

- Students will not use the internet without the permission of the member of staff in charge of the room.
- Students will be responsible for their behaviour when using the Internet. This includes the resources they access and the language they use.
- Students will not deliberately browse, download or upload material that could be considered offensive or illegal. If students accidentally come across any such material, they will report it immediately to their teacher.
- Where appropriate, referrals may be made to the designated safeguarding lead (DSL)
- Students will not access public chat rooms, forums and social networking.
- Students will only use Academy message boards, discussion forums and other electronic communication forums for educational purposes and these will always be supervised.
- Students will not copy information into assignments without acknowledging the source, because of plagiarism and copyright infringement.
- Students will not play multiplayer network games.

E-mail

- Students will not send any e-mails during lesson time without the permission of the member of staff in charge of the room.
- Students will only e-mail people they know, or people approved by their teacher.
- Students will only send attachments that are relevant to their schoolwork.
- Students will not open e-mail attachments from people they do not know.
- Students will make sure that all ICT communications with any student, teacher or others are sensible and appropriate.
- Students will not send material that could be considered offensive or illegal to any student, teacher or others.

- Students will not send anonymous messages or forward chain letters.
- Students will not send messages which appear to come from someone else.
- Students will not give out any personal information such as name, phone number or address.
- Students will not arrange to meet someone unless this is part of a school project approved by their teacher.
- Students will report any unpleasant material or unpleasant messages received via email.

Personal Devices

Students must be responsible and respectful about the use of their own technology within the Academy. Leaving a mobile phone turned on or using it in class, sending nuisance text messages, or the unauthorised taking of images with a mobile phone camera, still or moving, is in direct breach of the Academy's acceptable use policy.

General

- Students should store only School work into their "One Drive" for safe keeping as this area is backed up daily.
- No music, video or program files should be stored in these areas unless directed to do so by a member of staff.
- Students should understand that the Academy will monitor the use of the Academy network including email and web browsing.
- Students should understand that the Academy may check their computer files.
- Students should understand that copyright laws and intellectual property rights must be respected.
Students must be mindful of the information that you post/share/send online and how this may impact others i.e., you should be kind online.
- The Academy puts, as top priority, the security of its network and the safety of its users.
- Action by any user that adversely affects the smooth running of the Academy network will be dealt with very seriously.
- The Academy reserves the right to examine or delete any files that are held on its network and to monitor activity.
- The Academy reserves the right to check the contents of any computer external storage media connected to the network.
- Any unsuitable material will be deleted or destroyed, and suitable disciplinary action taken.
- Any large non-academic files (e.g. mp3 or jpg files) will be deleted from the network after consultation with relevant staff.
- Any use of phones in connection to computers is not acceptable unless authorised by a member of staff.

Definitions

“Hacking” is defined as any action, malicious or otherwise, that is designed to gain unauthorised access to network. This also includes computer or user information or to harm or take control of any computer system.

“Inappropriate material” includes any material that is deemed to be dangerous, pornographic, offensive, racist, sexist, illegal and any other material deemed by the school to be unsuitable for students.

Sanctions

- Violations of these rules or any other action that is inappropriate or endangers the Academy network may result in the withdrawal of access to the ICT resources.
- Additional action will be taken by the Academy in line with existing practice regarding inappropriate behaviour.
- For serious violations, suspension or exclusion may be imposed.

Where appropriate, police may be involved, or other legal action taken.

APPENDIX 1: Table of substantive policy changes from June 2021

| Where | What |
|--------------|--|
